WHAT YOU
CAN DO

GASES - THE INVISIBLE DANGER

A1B1E1 gas filter for maximum safety

COMPATIBILITY

Compatible with all optrel e3000X breathing protection systems equipped with TH3 particulate filter.

RELIABLE PROTECTION

Reliable protection against harmful gases. Prevents respiratory diseases, guarantees a better working day and therefore a better quality of life.

CERTIFIED SAFETY

A = Certain organic gases and vapors with the boiling point > 65° (brown)

B = Certain inorganic gases and vapors (except carbon monoxide) (gray)

E = Sulfur dioxide and other acid gases (yellow)

ACTIVATED CARBON FILTER AGAINST BAD ODORS

This filter absorbs odors generated during the work process. It thus contributes to increasing the comfort of the PAPR-system. Headaches can be alleviated. Ozone exposure is minimized.

MULTIPLE APPLICATIONS

Metalworking industry (welding, grinding, cutting), paint shops, food industry, agricultural industry, mining/open pit mining, chemical industry, first responders, fire departments, foundries, oil and gas industry, pharmaceutical industry, cleaning/clean room industry, foam/composite industry, shipbuilding.

Description

Art. No.

**A1B1E1 gas filter for
optrel e3000X**
1 piece

4088.700

Compatibility e3000X with particle filter

Storage temperature, - 10 °C bis + 55 °C,
Storage humidity 20 - 80 % RH

Humidity in the
workplace < 75% RH

Certified according to EN 12941:1998/A2:2008

Protection class A1B1E1

Weight 500 g

Dimension W/D/H 225mm x 44mm x 110mm (without strap)

Scope of delivery gas filter, operating instructions

Packaging Airtight sealed aluminum bag in cardboard
outer packaging

Shelf life 7 years (see labeling)
