PROTECTION COVER FOR SWISS AIR

swiss air just got even more comfortable!

EASY APPLICATION AND PROTECTION

- **Compatibility:** The swiss air **Protection Cover** fits easily over the swiss air.
- **Certification:** The cover is certified in accordance with IP54, which means that it is splash-proof and dust-proof.
- **Flame-retardant fabric:** Manufactured from a flame-retardant fabric.
- **Weather and dust resistance:** Rain or dusty environments are no longer a problem.

CONVENIENT APPLICATION

- **Weather resistance:** swiss air is now splash-proof in line with IP54 and offers protection in the event of unexpected rainfall.
- **Dust resistance:** swiss air is now dust-proof in line with IP54 and enables care-free work in dusty environments.
